

UMAR FARUK YAKUBU

Computer Engineering · Final Year · Ahmadu Bello University, Zaria · UYF GLOBAL VENTURES

ufarukyakubu@gmail.com · 0814 410 8204 · Zaria, Kaduna State, Nigeria · github.com/ELFAROUQ2006

EDUCATION

B.Eng. Computer Engineering — Ahmadu Bello University, Zaria Expected 2026

Coursework across embedded systems, AI, and software engineering; final-year project work in applied AI and diagnostics.

WAEC — Senior Secondary School Certificate — Hassana Memorial School, Kaduna 2015

Senior secondary education and West African Examinations Council certification.

PROJECTS

AI-Powered Smart Agriculture Monitoring System 2025

Designed monitoring architecture and produced a full component cost analysis using local Nigerian market pricing.

AI Voice & Facial Recognition Smart Security System 2025

Scoped a combined voice- and face-recognition security concept with component-level costing.

Pipeline Leak Detection System 2026

Compared fuzzy logic and MLP neural network classifiers on pressure, flow, and acoustic sensor data.

AskDept — Departmental RAG Assistant 2026

Built a document ingestion and retrieval pipeline using recursive chunking, sentence-transformer embeddings, and FAISS.

SKILLS

Python · C / C++ · Microcontrollers · Neural Networks · Fuzzy Logic · RAG / FAISS · Git

HOBBIES & INTERESTS

Technical Illustration · Entrepreneurship · Applied AI Experiments · Football · Swimming · Movies/Series · Chess
